

New Member PROFILE

Hello to the CCI community! It feels a bit strange to be writing a new member profile as FirstOnSite is a past member that is happily returning. In 2018, I was lucky enough to take a year away from my work life to welcome a new addition to my family, when Archer McCutcheon was born on January 8, 2018. While he was a bit of a surprise (not a girl as we had been told), we couldn't be more thrilled.

With my absence, my FirstOnSite team made a decision to step back from CCI for 2018, and man, it was a hard year to not be in the office! Each time we saw a windstorm or flooding hit the area, I would think of those who were likely affected by it and it was a difficult reminder that I can't do everything. I am very proud of my

FirstOnSite team and all of the long hours and hard work that went into a successful year.

One huge difference since the last time I participated with CCI locally is that we now have two distinct chapters! Congratulations to both Grand River and Golden Horseshoe as they continue to grow and develop their own unique personalities and preferences.

While many of the faces are familiar, there are also a number of new members that I look forward to meeting and introducing FirstOnSite and our services to.

While we are best known for our superhero abilities after a flood has occurred, my team is more than emergency water mitigation: we are the team that understands how an emergency situation is different in a condo. Multiple stakeholders and multiple insurance demands

create an environment that can easily go sideways if not properly managed. We are the team that ensures a fire is cleaned up efficiently and the damages are contained. We are the team that you will want in the case of trauma cleanup or vehicle impact. My Project Managers make me proud every day with their professionalism, knowledge, and empathy in a wide variety of situations.

Thank you to all the CCI members who are familiar faces at the meetings, and to those I don't know yet, please come say hello!
